### I. Foreword

## II. VISION, MISSION, OBJECTIVES, HISTORY

### Our Vision

To motivate the disabled people to leading an active and a full-fledged way of life and at the same time to inspire the non-disabled ones to cooperate continuously. Our vision is to help and take part in creating values where other's people's needs come first and where communication is based on accepting and understanding dissimilarities.

### Our Mission

Water is where we bring our mission into life. Communication built on grounds of acceptance and understanding is the essential characteristics of our activity. The leading activity is water exercising therapy for disabled people called Aqua (E) Motion Therapy. A conceptual, continuous and methodically led swimming program for the disabled people implemented at all levels, from rehabilitation to a professional sport level is in its approach an unmatched one. KONEV - a methodological series authored by the Association's founders Martin Kovář and Jan Nevrkla makes it possible for people with severe disabilities to move in the water. All the fields of the Association's activity are built on the grounds of a targeted and individualised therapy

- In order to dismantle the barriers lying between the disabled and the unaffected population, an example needs to be set of an active lifestyle, which calls for both disabled and non-disabled to fully cooperate.
- Motivating the participants in the Association's program to become independent and active in their approach stimulates the others as well.
- Helping the participants to reach a considerable level of self-sufficiency means minimalizing the need for assistance in engaging in the social life.
- Implementing the program primarily for the disabled children and youth and if the capacity allows to do so, to open it to all age groups and types of disability - has the intention to find an easier way for the growing generation of people with disabilities in order to pursue an active lifestyle and to participate in the social life without being dependent on institutional support.
- Offering various program types built on a common basis of an active motion in water therapy Aqua (E) Motion Therapy - The main activity is divided into three areas with specific characteristics: I. YIT - Year-round intensive therapy, II. WIS - Weekly Intensive Sojourns, III. IPT - Individual Preparedness Tests
- Allowing an adequate participation in the program for people with different aspirations, expectations and disability - swimmers in the YIT are divided into three levels: I. Compensatory-Rehabilitation, II. Fitness-Rehabilitation, III. Sporting-Rehabilitation, and being divided into groups they may, in various frequency, take part in the year-round swimming.
- The YIT is to be implemented as a social activation service - the process follows the methodology of "KONEV - a methodical series of swimming for disabled" whose authors are, the quadruple Paralympic champion Martin Kovář and his coach Jan Nevrkla, both founders of the conceptual framework of teaching swimming for the disabled of the Czech Republic.
- A tuition led with expertise and quality, of both the brush-up swimming and sports training, in order that they result in coping with autonomous motion on the water table and reflecting this independence in the day-to-day life.
- Acting on the development of the overall personality - Aqua (E) Motion Therapy encourages self-confidence and courage in pursuing new things, it promotes the ability to make decisions independently; the rehabilitation aspects of the active motion-in-water therapy brings about an increased joint range, vital lung capacity as well as a strengthened residual functional potential or a settlement of the muscle imbalance, scoliosis, prevention of pressure sores and other secondary complications resulting from a particular type of disability and diagnosis.

### Objectives

The Association has established strategic, long-term and short-term objectives. The objectives proceed from the mission of the organization. The Centres of the Association create a framework for the implementation of individual goals of a swimming trainee and a shift in the quality of each and every individual in the level of swimming exemplifies his involvement in everyday life and creates natural conditions for participation in the local community and in areas other than merely swimming.

#### ***The Strategic Goal - 10-year horizon (up to 2020)***

To create conditions for methodically and professionally guided swimming lessons of people with disabilities in all counties of the Czech Republic.

#### ***Long-term objectives - the horizon of 4 years (up to 2014)***

Stabilization of the program in the root centers in Prague, Brno, Karlovy Vary and České Budějovice in compliance with the standards required from a social service provider.

Introduction of processes in accordance with the requirements of ISO standard.

Preserving the current capacity of social services in four centers, that is to say a total of 285 posts.

### **Short-term - Horizon 1-2 years (up to 2012)**

Managing of the program in accordance with the social services quality standards in the four existing centers of the Association.

Proposing systematic staff and volunteer training from areas where the KONTAKT bB training program has created conditions for regular swimming events for the disabled, that is to say Jihlava, Děčín, Kladruby, Kutná Hora, Zlín, Liberec.

Accrediting the Association as a training point of swimming for the disabled at the Ministry of Education.

Establishing an optimal rate of service users in different levels of the swimming program.

Updating the source and control tests of the level of swimming and scheduling the setting of the test in a regular time period on accession to the social service and by the end of the swimming school year in June.

Increasing the number of those swimmers of the regular annual training who involved in the series of the Czech Cup races.

Four swimmers filling the international criteria to receive a nomination in the Summer Paralympic Games in 2012

### **History**

- 1985 Jan Nevrkla and Martin Kovář meet quite often inside and in the vicinity of the Kajetánka hall of residence, at the Faculty of Physical Education and Sport in the Tyrš House of the Lessor Town, and in the student canteen of the Faculty of Physical Education and Sport of the Charles University in the Všešrdova street, but without being interested in each other to any great extent
- 1989 Martin Kovář stopped skiing and, one day, he arrived at the canteen on a wheelchair
- 1991 Martin Kovář persuades Jan Nevrkla, and both of them start to visit a swimming pool
- 1992 Martin Kovář organises the first course at Strahov while Jan Nevrkla and Milena Vavříčková (Dušková) manage the course
- 1993 Start of the cooperation between Jan Nevrkla and Roman "Doudy" Vojáček
- 1994 During their one-year stay in Israel, Jan Nevrkla and Milena Vavříčková (Dušková) teach physically disabled people in the Ilan centre at Kiriat Haim, near Haifa, swimming and modern gymnastics; Radka Kučírková, Stáň a Soukupová (Hrachová) and Roman Vojáček keep running the swimming courses in the Czech Republic and manage weekly stays in Strakonice and at Strahov.
- 1995 Owing to Zdeněk Škaroupka, the Kontakt programme is launched, under the umbrella of Brno's League for Wheelchair Users' Rights. Jan Nevrkla makes the rounds at rehabilitation hospitals, contacts the men and women who have just broken something in their bodies, holds stayovers with swimming lessons for them at Strahov and in Strakonice. Regular intense coaching starts in Prague. The core members of the future national team, Martin Kovář, Tomáš Scharf with coach Jan Nevrkla, set out for the European Championship in Perpignan for the first time, with the journey being financed by their medical companion Jan Hnízdil. He decided to support the new programme in this way using the money he had earned during his healthcare activities with professional cycling teams.
- 1996 Kovář and Coufalová are the first swimmers who represent the Czech Republic at the Paralympic Games. Kateřina Coufalová, coached at Slavia by Daniela Kočovská, is the first Czech paralympic SWIMMING WINNER.
- 1997 At the European Championship in Badajoz, where the participants travelled by a bus of the Ta Fantastika theatre, KONTAKT won its first medals at a large competition – by Kovář, Kunová and Tunzer; Coufalová became the European Champion.
- 1998 The preparation committee, consisting of Jan Nevrkla, Michaela Žertová (Grey) and Roman Vojáček, prepares the association statutes, name and registration. KONTAKT bB is established at its first General Assembly in the "U kaskadéra" restaurant in Strahov, Prague. Milada Kunová wins the first medal in the World Swimming Championship in New Zealand; the medal is bronze. Coufalová wins silver, while Martin Kovář spends the World Championship in a hospital.
- 1999 Roman "Doudy" Vojáček establishes a centre in Brno, and becomes a pioneer in building up a programme primarily focused on swimming by children with congenital disabilities. Kovář and Hoffmanová become European Champions in Braunschweig, Germany; Coufalová repeats her previous success; Machala wins another medal, and yet more evidence of the swimming progress is the medal won by the men's relay team.

- 2000 Two gold medals from Sydney plus seven additional ones; Kovář and Hoffmanová become Paralympic Champions and world record holders; moreover, they win three additional bronze medals together. The legendary relay team of Kovář, Kuna, Povýšil, Scharf finishes the entrancing race by two tenths of a second behind the third British to improve the Czech record by six seconds. Machala adds bronze in a fantastic crawl sprint, while Coufalová wins the same medal in a 200m medley with a great improvement of her personal record. Swimmers of the young and new generation, namely Lišková and Povýšil, win the silver and bronze.
- 2001 Michael Johnson, the world's best athlete for 2000, becomes patron of the project Doing Sport to Live a Life Without Barriers, while Doc. Pavel Kolář is the expert guarantor of the project, and Tipsport, a.s. is the main partner. Owing to the project, we establish centres in Karlovy Vary, České Budějovice, Janské Lázně and Jindřichův Hradec. Even without Kovář, who takes a breather in 2001, and Coufalová, who announces the end of her top-performance swimming career after the Paralympic Games in Sydney, Czech swimmers confirm at the European Championship in Stockholm that they are some of the world's best. Hoffmanová wins four European Championship titles; additional titles are won by Běla Hlaváčková, a new member of the team, who is coached in Náchod by Roman Hakl; and the women's medley relay team of Hoffmanová, Hrozná, Hlavá \_ ková, Kunová defeats the relay teams of the swimming great powers from the United Kingdom and Germany – Milada Kunová, who has returned after her maternity leave, wins the gold in the finish again.
- 2002 KONTAKT bB comes to Ostrava. We carry out a programme for 500 people a year. Kovář wins two titles in the World Championship in Argentina; Hlavá \_ ková wins one; and the men's crawl relay team wins silver, which has been the greatest team success in the Czech paralympic sport so far.
- 2003 KONTAKT bB comes to Kladruhy – swimming becomes part of the rehabilitation process and, compared to the beginnings of our activities in the middle of the 1990's, when water was taboo for paraplegics and quadriplegics, this has been a great breakthrough, with great job done by KONTAKTbB. Zbyněk Švehla becomes the first European to finish the Hawaiian Ironman; in Brno, we host the first EUROWAVES, with the participation of 28 countries, as a substitute for the European Championship that is not held.
- 2004 Kovář wins three gold paralympic medals and breaks three world records under Acropolis - the best result of the Czech sportsman in the Summer Paralympic Games, which nobody has outdone so far. More paralympic titles won by Hlaváčková and Coufalová, who resumed swimming in 2003 and fully practises at KONTAKT. Kadeřávek wins the bronze in the S1 class, thus confirming the quality of the swimming programme, primarily oriented, especially at the beginning, on people severely affected by spinal lesion.
- 2005 Launch of the swimming programme in Jihlava, under the umbrella of SK Vodomílek. We hold another year of EUROWAVES. In October, Zbyněk Švehla finished Hawaiian Ironman for the second time, and the long triathlon in the total time of 13:38:33, fourth in his category of "physically challenged", with 1,300th position of all 1,800 participants.
- 2006 KONTAKT bB implements full-year swimming lessons in 7 centres. One gold, two silver and five bronze medals won by swimmers at the World Championship in Durban, South Africa. Although a new generation has largely replaced the previous one, the team remained among the top fifteen countries; Hlaváčková confirmed her unrivalled position among the world's best; Lišková and Povýšil returned to the medal podium after a period of stagnation; Petrá \_ ek debuted in the team with a silver medal; and Hlavinka also made his way among the best of the world.
- 2007 The association is registered as a provider of social service. This involves higher requirements for the implementation of our programme, which is concentrated in five centres, three of which being main ones, in Prague, Brno and Karlovy Vary, and two smaller ones in České Budějovice and Ostrava. We hold another successful EUROWAVES. In an effort to take part in the Paralympic Games in China, some, previously successful, swimmers and a former coach, who had been provided with the background and whose way to the world's elite level had been paved by KONTAKT bB in particular, decided to join a different organisation in late 2007 and early 2008, and to secede from the association and people who had led them to date. On the other hand, swimmers Lišková, Franěk, Mach, Andryšek, Hlavinka, who had also met the criteria to take part in the Paralympics, stayed where they had learnt to swim, had drunk their first beers, experienced intense coaching sessions as well as evenings with swimmers and coaches who are close to them, even though they could not take part in the Paralympics, with a chance of achieving individual success.
- 2008 Brněnský Drak has increased the number of the race series. Zbyněk Švehla went to Kona, Hawaii to become the Iron man for the fourth time already taking with him and being of tremendous support to Michal Šiška, who stands as a shining example of the realization of the mission of KONTAKT. The international swimming contest EUROWAVES was held for the first time in Chomutov. Four world records were surpassed as well as one European record. Martin Kovář, the founder of the swimming program, has fathered a child called Jan. For the first time since the founding of the program, we witnessed the Summer Paralympics as mere spectators. The Paralympics hosted six followers of the KONTAKT bB program, who half a year before the venue of the Paralympics transferred under obscure circumstances to another organisation. Two of them, the most experienced ones won one silver and four bronze medals. The others fell behind their personal records in the balance of a single final race. The exit of the seven swimmers did not interpolate the fact that we organise the

program for 300 people, the majority of whom are not interested in paralympic-like grand projects. KONTAKT bB did celebrate its tenth anniversary of its founding with peace and dignity.

- 2009 We've proudly started calling the program of KONTAKT bB the Swimming academy beyond borders. The main activity has been concentrated in four centers - Prague, Brno, Karlovy Vary, České Budejovice. The České Budejovice centre was joined by a full-time former head of the Prague Centre Jan Janousek and under his leadership, the center began to develop promisingly. The 3rd. year of the Czech Cup came through successfully and we carried out again the EUROWAVES meeting in Chomutov. There was a breakthrough Constitutional Court Finding in the dispute concerning the membership of the Czech Union of disabled athletes (ČSTPS) with the Czech Paralympic Committee (ČPV) and based on this finding, the Supreme Court handed down the verdict at the end of the year that ČSTPS has never stopped being a member of the ČPV. This decision was upheld the 13th April 2010 by the Municipal Court as the sixth judicial instance. The verdict relates to our sports clubs that are members of the ČSTPS, and indicates that our swimmers who have resisted the attractions of transferring to another organization, had been unjustly denied the right to participate in the top Paralympic competitions.
- 2010 The Court nailed down that the Czech Sports Organisation for Physically Disabled never ceased to be a member of the Czech paralympic committee. The latter carried on its arbitrariness and immediately after the verdict had come into power, it expelled the Czech Sports Organisation for Physically Disabled for allegations on non-payment of membership fees. The participation of the swimmers of KONTAKT bB on this year's top international races had therefore been blocked. The Czech Paralympic Committee (CPC) rejected to licence internationally Kateřina Lišková and Vojtěch Fraňek, whose 50 m butterfly world record in Brno could not have been acknowledged. The CPC equally rejected to shield the EUROWAVES international race which we have organized since 2003. We therefore organized a home-born national Championship which was successful and highly motivating for the swimmers. We secured the swimming part of the Junior World Games IWAS in Olomouc which was highly valued by the participating countries. Kateřina Lišková was inducted to the Barrierless Pool of Fame. However after some pressure from the International Paralympic Committee IPC, the CPC had to start enlisting our swimmers to international competitions which opens up the possibility for swimming at another Paralympics. Despite the decision to bring her national team carrier to an end, Kateřina would have done a good job. The phenomenon going by the name of Martin Kovář is unwaveringly heading for his fourth Paralympics though this time on a handbike. In 2010 he reached the 3rd - 4th position in the European Cup Race ranking and on all races he reaches medal positions on regularly. The founder of swimming getting his fifth gold medal this time on the motorway?

## The 3rd Areas of major activity

### **YIT - Yearlong individual training**

#### ***Motto: "On the wave of solidarity"***

We've become a registered provider of social services, which we've implemented at the YIT area since 2007, The main therapy is an active movement in the water - Aqua (E) Motion Therapy. The swimmers are divided into three levels: I. Compensatory-Rehabilitation, II. Fitness-Rehabilitation, III. Sporting-Rehabilitation The YIT area goes hand in hand with the training program for the centre's volunteers and instructors and with the collaboration with professional schools and universities.

Thanks to the impingement of KONTAKT bB, the Rehabilitation Institute in Kladruby included swimming into the rehabilitation process. The swimming proposal was introduced at the Hamzova odborná léčebna in Luže Košumberk, and we guarantee also the syllabus for the subject Physical Training and Sport for the Physically Disabled at the Third Faculty of Medicine, Charles University in Prague.

Regular physical activity in the water brings about improvement in physical fitness. At the social level, it offers the opportunity to cultivate friendships and relationships. Usual activities outside health care facilities offer the opportunity to exchange experience from school, work or about various "tweaks" important for a better mastering of self-service. Everything can help to focus on leading an active and independent lifestyle. Engagement in the regular free time activity is fundamental. It can help open up new horizons namely to parents with children with congenital handicaps. As the existing horizon is often framed mainly by surgeries, rehabilitations and specialized medical institutions. The possibility of taking their child to swimming lessons, just like their neighbours send their children to tennis, may be a strong stimulus for their family life.

Owing to the methodical series KONEV by Jan Nevřkla and Martin Kovář, we can teach swimming even to people with severe physical disabilities. A total of 292 people with physical disabilities, 53% of which are children and young people under 18, were engaged in the YIT in all the centres. The preparation and implementation of the swimming program is assisted by sport clubs that have been established round the centres in Prague, Brno and Karlovy Vary, in accordance with the association's code of rules, as separate legal entities which fill in the swimming lessons in the regions with sport activities and other free time activities

Swimming lessons in 2010, thanks to the training program of KONTAKT bB took place also in nine other locations in the Czech Republic within the scope of autonomous legal entities - KONTAKT OSTRAVA Sports Club (hereinafter SC), Vodomílek Jihlava SC, Rehabilitation Institute in Kladruba, Nursery Centre in Děčín, Business Academy in Jánské Lázně, SC (Swimming Club) Zlín, Kapři Jindřichův Hradec, Cesta životem bez bariér (A barrierless Path for life) Kutná Hora, DRÁK Liberec

### **The Prague Centre**

The work team:

Jaroslav Kolář - Manager of the Centre

Miroslav Vanek - Deputy Head of Centre

Táňa Lálová - PR and FR Manager of the Centre

The program is actively observed by the mum Miloslava Stuchlíková - Centre Manager before going on the maternity leave

In the Prague Centre with a capacity for 115 swimmers the swimming lessons took place all year round at the Strahov pool. A total of 121 swimmers have made use of the service, which consists of 11 sixty-minute sessions at 17 swimming lanes a week. Following the tradition, the Centre guaranteed 3. **the syllabus for the subject Physical Training and Sports for the Physically Disabled at the Third Faculty of Medicine**, Charles University in Prague. The weekly intensive course was frequented by a total of 20 students of physiotherapy. The students became familiar both theoretically and practically with the specifics of swimming and other sports for the physically disabled people.

The Centre organized a seven-day residential event for adults called A Sharp Start Anew (See chapter WIS), the 19th Strahov Cup race (in chapter IPT). In April we managed to meet at the burning of the Prague witches. In June Quidditch finished the school year, and the Fishing for the Strahov carp signaled the oncoming Christmas.

The volunteers are the vital energy of the YIT. This year, 31 of them decided to take a training and participate in regular swimming lessons. These people deserve a word of Thank you:

Jiří Deutsch, Martin Endl, Václav Eybl, Martin Fábry, Kateřina Firstová, Nikola Frkalová, Michaela Havlišťová, Veronika Herdová, Renata Horáčková, Anna Jánská, Jakub Kozel, Jana Křenková, Ivana Křížová, Marie Lazarová, Marie Karasová, Eliška Mirská, Jan Mojžíš, Markéta Nováková, Petra Pechová, Lucie Přivratská, Barbora Rothová, Liliana Sharanych, Oleksandr Sharanych, Hana Sladká, Libor Smékal, Eva Somolová, Kateřina Škvorová, Katka Šperková, Dan Světlík, Helena Veverková, Pavla Zahradníková, Pavla Zaleková. Our Thanks also belongs to Barbora Smékalová and Petra Stejskalová whose long-term participation puts them to the category of professional instructors. In 2010 we were in contributory and disposed terms with the College Sports Centre coaches Mr. Jaroslav Strand and Ms. Markéta Kaplanová. Thank you for your collaboration in bringing nearer the two banks of the one swimming. We would like to thank Mr. Ing. Luboš Klouda and Mr. ing. Tomáš Jung for helping in the realization of the program.

### **The Brno Centre**

The work team:

Mgr. Jana Nastoupilová – the Manager of the Centre

Mgr. Ivana Tesařová, Deputy Manager

Marta Vojáčková - PR and FR Manager of the Centre

In the Brno Centre the swimming takes place mainly in the premises of the Sports and recreational complex Kraví Hora. In the first half of the year, we used the pools of the elementary schools at Horní and Arménská street in Brno. In the second half of the year the lessons were transferred to the premises of the newly built Sportareál Družstevní in Řečkovice The quota of the service, 85 persons, was fully used. The swimmers were offered 10 sessions in 5 swimming lanes in two school pools a week, in the second half of the year there were 17 lanes available.

The Centre organized a lecture and a practical training for students of the Faculty of Sports Studies at the Masaryk University and implemented year-round swimming lessons for children in social need from the Children's Centre in Brno.

This year the Centre organized two residential events - for the youngest children called the Fairyland and the Dawning for teenagers (see chapter WIS) as well as two races - the domestic high spot the Championship of the Czech Republic and the Brno DRAGON (see IPT) In the course of the year these following events livened up the spare time. There were three bowling tournaments, a ball called the Harlequin ball, a May-Day stroll On the tracks of Hynek, Vilém and Jarmila (according to a piece of work of a famous czech poet Karel Hynek Mácha called Máj /May/) and at the end of the year there was the Cup of the buddings of Brno which was followed by a winter Advent gathering. The Centre's swimmers also participated in a regional competition for

elementary school pupils - the Svatka valley Cup. The greatest achievement here was made by Ms. Michaela Philippi who reached to the final. She was also declared the second best disabled athlete of the South-Moravian Region.

Here are the names of the 48 volunteers participated this year in the swimming lessons and in the related events

Lucie Bajnarová, Jan Benda, Pavla Brandlová, Eva Ďurková, Karolína Farníková, Jana Foffová, Vít Franta, Vojtěch Hanzelka, Jitka Holomková, Jiří Homolka, Hana Horáčková, Petra Hromádková, Petr Hušek, Veronika Chasáková, Anna Chasáková, Lucie Janečková, Markéta Javorová, Andrea Ječmínková, Lenka Juřenová, Lukáš Klempa, Petra Kobolková, Barbora Kouřilová, Veronika Kozlová, Karolína Krchová, Hana Kubiznová, Zuzana Lehotská, Šárka Licehammerová, Zuzana Macurová, Lucie Mašínová, Barbora Mojrová, Barbora Mžíková, Eva Nehudková, Jana Novosadová, Lenka Pohanková, Lenka Pokorná, Lenka Rádová, Eliška Skalická, Tomáš Sláma, Lucie Strapáčová, Lenka Svobodová, Renata Sýkorová, Martina Talianová, Katka Teplá, Hana Vojířová, Ivana Vondráková, Markéta Zichová. We would like to thank Mr. Jaromír Bečvář and Ms. Zuzana Lehotská for their regular participation as swimming instructors. A video from the Fairyland was brought to reality by Mr. Marek Čevela.

### **The Karlovy Vary Centre**

The work team:

Mgr. Štěpánka Řehořková - Manager of the Centre

Monika Violová, Deputy Manager

Tomáš Černý, Head of Swimming Lessons

Mgr. Michaela Tůmová - after being on maternity leave she started working as the FR Manager of the Centre in order to pass on her experience gained in this area only to be back on maternity leave in February of the following year.

As usually the swimming was done in the swimming pool of Alžbětiny Lázně and in the swimming pool of the elementary school in Krušnohorská street. A total of 53 swimmers carried out 12 lessons on 24 lanes.

The Centre organized for the swimmers a residential event called Spa for the Kids (see WIS), and the first race of the series of the Czech Cup POHAREK 2010 (see Section IPT). The following events were organized for the free time of its swimmers, their parents and their friends and their volunteers. There were four bowling gatherings, an interesting visit was paid to the stables of the horse-racer Mr. Josef Váňa, than the witches were burned and everyone went on a trip to explore the Bohemium park in Mariánské Lázně and to the Aquaforum in Františkovy Lázně. Saint Nicolas didn't forget about the swimmers and organized the St. Nicolas championship at the Centre. The swimmers and all the supporters of the Karlovy Vary Centre enjoyed themselves at a benefit concert at the church of the Ascension Day in Stará Role and before Christmas they had a Christmas cookies testing party where they tasted each others cookies.

The excellent job of the Centre was appraised by the City of Karlovy Vary and by the Sports Union of the Karlovy Vary Region. Milan Man, Vendula Dušková and Petra Flekačová were proclaimed the best disabled sports team.

These 25 volunteers were engaged into the swimming lessons:

Lukáš Body, Martin Buchner, Tereza Bystroňová, Štěpán Cagaň, Kristýna Ernestová, Frkalová Nikola, Adriana Habermannová, Simona Hankerová, Zdeněk Himr, Lucie Hronová, Petr Kohuš, Adéla Koudelková, Dominika Kovandová, Radek Leitgeb, Michaela Maříková, Jakub Novák, Štěpánka Petrová, Kateřina Plávková, Barbora Rothová, Martin Rovný, Jan Rzounek, Kamila Šimandlová, Michaela Šmejcová, Alena Ženíšková ml., Alena Ženíšková, Michaela Ženíšková

We would like to send a wave of thanks to the instructors Ms. Pavla Slavíková, Ms. Alena Bahníková and Ms. Veronika Šimová The management of Alžbětiny Lázně Lt d. provided us with good background at MUDr. Stanislava Maulenová. Mrs. Pavla Váňová and Mr. Josef Váňa opened up their stables for us. The sextuple winner of the traditional horse racing "Velká Pardubická" Mr. Josef Váňa, took patronage over the POHÁREK race bringing good reputation to the gathering. The waves are carrying words of thanks to Jitka Peřina for her support in the realization of the sports program, to Jiří Linhart for writing about our program in the Karlovy Vary region press, to Mr. Josef Sedlák for his cooperation in the IT area, to Ms. Miluše Millerová and Ms. Michaela Dekanová for her work in fundraising and to and the pastor Vladimír Miller from the Stará Role parish for his spiritual support and realization of the benefit concert.

### **The České Budejovice Centre**

Employee:

Jan Janoušek, Manager of the Centre

Throughout the whole year 8 swimming lessons in 8 swimming lanes were prepared in the IGY commercial centre and at the Town Pool per week which were attended by 33 swimmers, 10 more swimmers compared to the previous year 2009 under the leadership of Jan Janoušek. The performance of the swimmers from the South Bohemia is also improving - the expedition of the České Budějovice centre participated in the whole series of races of the Czech Cup and Adam Šimonek in the competition among other 22 pupils won the 5th place in the Czech Cup. The Centre has earned its place among the non-profit organizations in the region and seeks financial support from local sources. This would significantly set the program forward at the center and allow its further development. The South Bohemian region is in need of such financial support.

These 16 volunteers helped with the swimming lessons.

Jiřina Bartoňová, Zuzana Frantíková, Barbora Fuksová, Kateřina Galová, Petra Hovorková, Eva Kovalčíková, Jindřich Kovařík, Kateřina Krotká, Lenka Kunová, Petr Němec, Martina Rusínová, Jan Samec, Tomáš Tlustý, Lenka Tringlová, Eva Vániková and Irena Vániková.

### **WIS - Weekly Intensive Sojourns**

**Motto: "I want to live, survive and experience!"**

Residential events is an area of activity, from which the entire program of the association unwound. It therefore shows the vision, mission and goals of the association in an concentrated form and time period of one week. Every day is busy and the intense two-stage swimming lessons are framed by a thematically focused experiential program CIH - Creatively Intuitive Harmony. In the course of the week programs of volunteer training take place. Classification of swimmers according to type of their disability and compensatory exercises is ended by a swimming race as a test of learned swimming skills. Our staff and volunteers at the event provide the necessary personal assistance and matters associated with the provision of social services (basic counseling, etc.). The sojourns provide our clients with the opportunity to spend them with a family member, such as the family holiday residence in Strakonice. One of the steps towards self-sufficiency, primarily to a psychological self-sufficiency, may be to undertake a weekly stay of children or adults after injury out from the family framework, or health care institutions.

Residential events are organized for age groups of children, youth and adults for beginners and advanced swimmers.

### **XIV. Sunrise**

Organizer: KONTAKT bB Brno Centre

Term: 21 - 27 28. 2010

Venue: Svitavy

The Swimming Academy beyond barriers was undertaken by thirty-one swimmers aged 12 to 20 years, that were taken care by a team of seventeen volunteers and five staff members of the association. They prepared a challenging educational program which goes by the name of PEKLO (meaning hell in czech language) - an abbreviation standing for the sphere of Swimming and ecology - (in czech Plavecký a EKoLogický Obor). The swimmers were presented with a swimming training program aimed at improving endurance so the number of kilometres they were able do was a surprise for them. There was no fear of exhaustion as the correct dosage was observed by the co-creator of the swimming methodology, the chairman of the association Mr. Jan Nevrkla. So, although the swimmers were tired after each workout, they had just enough energy for other swimming lessons or for the onshore activities including high-quality rehabilitation exercises. This year, the additional program focused on ecology with the entertaining short lectures of dustman Joe and Zlata Vymetalová and planting of the tulips was done under the leadership of the horticultural capacities Mařka and Bořka Girls in Action taught swimmers to cook and bake delicious delicacies and the highlight was the lecture of our graphics designer and the association's court photographer Vít Franta on his experiences during his month in India. Although his lecture affected ecology only marginally, it left the audience in an awe. The sojourn culminated by the SVITek CUP featuring many personal records. The new swimming style brought joy after counting the distance swum and the academic council had to say that all students reached A levels in this test.

### **XL. Starting off sharply anew**

Organizer: KONTAKT bB Prague Centre

Term: February 28. – March 27. 2010

Venue: Prague, Strahov

A total of 12 adults with physical disabilities gathered in the first week of March at the Strahov hill wanting to bring into their lives new impulse coming from swimming lessons. Their efforts were assisted by a team of seven volunteers and five staff members of the Swimming Academy.

As already mentioned, the main goal was to learn the art of swimming in two swimming lessons a day under the leadership of the supervisor of the Prague center Mr. Jaroslav Kolář. Divided into two groups according to their

swimming skills, the students were schooled in the basics of swimming and technical skills that lead to full mastering of swimming styles.

Not only work keeps a man alive. Evenings were devoted to entertainment for which often there is no time in the everyday life. At the beginning of their stay, the students attended a lecture of MD. Jan Hnízdl on Stress and ways of coping with it. The dark night was lit up by a path with torches, leading to the chateau in Mníšek pod Brdy, where its chatelaine disguised as the swimmer the Prague center Jana DigrínováJohn opened the gate for a night tour. The students went to the centre of Prague to see a play based on the story of the famous writer Bohumil Hrabal called Postřižiny.

The whole week was marked by an atmosphere of togetherness and new friendships. The Start Cup swimming competition became the highlight of the week where the students obtained a deserved diploma "for their participation and survival."

### **XVIII. Summer Swimming**

Organizer: KONTAKT bB

Term: July 11. - 31. 2010

Venue: Strakonice

The summer spent in Strakonice has already become an integral part of the holidays of the swimmers of KONTAKT bB for eighteen years. Gradually, thanks to the growing interest, the initial one week has grown to three weeks, when the first is devoted to adult swimmers, the second and third to young children. The first tour this year was attended by 48 swimmers, and the second by a record of 54 swimmers and the final one by 44 of them. They were assisted by 60 personal assistants who received training during their stay in the methodical series KONEV of the association's founders - the fourfold Paralympic champion Martin Kovař and his trainer Jan Nevřkla.

Both creators were present in Strakonice. Jan Nevřkla was there as the supervisor of the event and as the senior tutor. Martin Kovař participated in the program of the first tour as well as in the trainings on handbikes together with the fourfold participant of the hawaiian Ironman Mr. Zbyněk Švehla. The young swimmers had the chance to meet with their idols as Milada Kunová, the winner of bronze in the World Championship in New Zealand in 1998, participated in the second week. She came to Strakonice in order to strengthen her form along with her husband Václav, who was a mainstay of the male crawl relay decorated with bronze in the European Championship and by the fourth position in the Paralympics in Sydney. They were accompanied by their two daughters. The Paralympic medalist Kateřina Lišková being among the world leaders thanks to her performance, trained extensively in all three tours.

The motivation to participate in the sojourns in Strakonice is not only the desire to swim quicker in accordance with the rules of swimming, but also to become familiar with sports that are not commercially available. The traditional underwater rugby was presented to the swimmers by the members of the FA diving club. Newly they were presented with martial art La Canne - on the first tour MD. Jan Hnízdl gave a lecture on Doping in sports and the film critic Vladimír Hendrych gave a lecture called "A close look at Jack Nickolson" which was an intergral part of the CIH Film academy beyond barriers. During the second and the third tour the participants shot short films which evoked enthusiasm from the part of the audience and the prize for the winning film was given on the second tour to the team under the leadership of Petr Tůma, for the entertaining recipe for a summer salad called "Biological drama". At the kids' sojourn the jury took interest in the piece of art linking rap with swimming called A healthy mind in a healthy body.

The highlight of each tour was the race Strakonice Cup I - III, in which the swimmers' advances were verified by the stopwatch. Some managed to swim the route for the first time and some tried to swim the route with a newly mastered swimming style. The races were officially opened by the leaders of the city, the Mayor Mr. Pavel Vondřys, took patronage over the entire sojourn and the Deputy Mayor Mr. Pavel Pavel.

Although the swimmers were tired after the intensive training and exercises they did not want to leave the group of people with whom they spent a rich week. For this reason they took advantage of the fishing contest called Fanda Charvát Memorial which marks the end of the Summer swimming. The fishermen with and without wheelchairs gathered at the pond near the school farm of the Secondary Agricultural School in Dobeřice u Písku. The contest for the longest fish was won by Karel Pauch and the member of the Supervisory Council of KONTAKT bB Miloš Hirman caught the most fish.

### **V. The Land of Tales**

Organizer: KONTAKT bB Brno Centre

Term: September 19 – 24 2010

Venue: Bystrá u Poličky

Again, after a year in fairy-tale characters appeared in Bystrá u Poličky. The Snow-white and her dwarfs, last year accomodated in the hotel in Bystrá were replaced by the robbers and bandits from the Swimming Academy of bandoleros beyond barriers founded by the reknown association KONTAKT bB.

The first evening Baba Ili presented the students with a very demanding program with - swimming lessons twice a day, hippotherapy twice a week, cannis therapy, bandolero yoga and Creatively Intuitive Harmony in the free time. All the activities throughout the week lead up to the passing of the final exam necessary for obtaining the Bandolero Trade Certificate. The students buckled down to work with vigor and diligence, especially after they found out that the exams had been successfully passed also by such celebrities as the Spiderman or Bill Gates. The founder of the Academy, Lotrando junior himself handed over the Trade Certificates to the rebels after they had surmounted the watercourse, tamed a wild horse, domesticated a dog, passed the Flexibility and Strength exam, the Dexterity exam, the Invisibility exam, the Swift tongue exam, the Light signalling exam and the Smart heads exam.

## **XII. The Spa for the Kids**

Organizer: The Karlovy Vary Centre

Term: November 7 - 13 2010

Venue: Lázně Kynžvart

Inconspicuous at first glance, the smallo town of Lázně Kynžvart harboured a supernatural machine that transported twenty-four children, together with their four assistants, into the space-time! The Daredevils participated in this scheme voluntarily supported by their parents. The Board of the Swimming Academy beyond barriers, made of the world's prominent professors of the supernatural, terrestrial and underwater science supervised the safety of space-time transport. In a week the globe was criss-crossed from prehistory, through the Chinese Ming empire all the way to planet Fantasia. After returning from such exotic realms and time periods, everyone was relieved that they had managed to come in time, so as not to miss the world-famous races in Cheb named "Chebský Špalíček" after a historic building in the city centre called Špalíček - [shpaleetshek] It was the first year to incorporate a fifty of children from the elementary schools of the city of Cheb into the relay race. The joint relay tournament did not lack the fighting spirit, commitment, pace or endurance.

## **IPT - Individual Preparedness Tests**

***Motto: "More than just a sport!"***

The IPT area of activity logically follows up the swimming tuition and the sojourn events as well. The implementation of this area is carried out with the cooperation of our Association with sports clubs founded at the initiative of KONTAKT bB. The clubs act as separate legal entities at individual Centres of the Association. The IPT area covers mainly organizing races on home ground. The series of four races of the Czech Cup has gained reputation as the number of competitors on each of the gatherings varies between eighty up to one hundred and thirty.

## **IV. year of the Cezch Cup**

***or "Not the swimmers - the swim suit is small!"***

The Czech Cup Series 2010 was consisted of four traditional races organized by the KONTAKT bB Centres and their Sport Clubs. The swimmers' results achieved in individual races, were recalculated according to the KONTAKT bB scoring system. The overall standing was reflected the best three results of the diathlon from the whole series (the sum total of the best two events on a particular gathering). The model of the point conversion allows the swimmers to compare their performance regardless of the disability, qualification class or gender. This creates a healthy rivalry and greater competition.

## **The 9th The small Cup**

Organizer: The Karlovy Vary Centre and the Karlovy Vary KONTAKT Sports Club

Term: November 27. 2010

Venue: The swimming part of the Cup was held at the swimming pool of Sokolov, the annunciation ceremony was held in Karlovy Vary

the 9th. year of swimming races POHÁREK (stands for the Small Cup) 2010 and the first race of the Czech Cup was not to be missed by a total of 128 swimmers from eight swimming clubs. The participants were mainly swimmers of the Centres and Clubs of the KONTAKT bB civic association. The home club SK KONTAKT Karlovy Vary was represented perfectly by 33 swimmers. The most represented club was SK KONTAKT PRAHA with 38 swimmers, The SK KONTAKT BRNO participated with a team of 26 swimmers and the České Budějovice Centre of KONTAKT bB arrived with an expedition of seven swimmers. Other clubs that delegated their swimmers are SK VODOMÍLEK Jihlava, PK (Swimming Club) Zlín, DRAK Liberec and PK Bohumín. For

the second time in its history, the participants from Slovakia added an international hallmark of the gathering. ŠK (Sports Club) ALTIUS and ŠK IAMES from Bratislava introduced ten swimmers of the Slovakian paralympic representatives. In terms of points, the best Male performance in the race (and the absolute best performance) was that of the long-standing czech representative Mr. vojtěch Franěk from ŠK KONTAKT PRAHA. The best Female performance in the race was that of Ms. Karina Petrikovičová from ŠK IAMES at the hundred meter backstroke. A total of fifty volunteers helped the organizing comitee with the organization of the race. The Mayor of Karlovy Vary Mr.. Werner Hauptmann and the Mayor of the City of Sokolov Mr. Karel Jakobec took patronage over this event along with the sixfold winner of the major Czech horse race event "Velká Pardubická", the horse-racer Mr. Josef Váňa.

#### **XV. The Czech Republic Championship**

Organizer: KONTAKT bB Brno Centre and SK KONTAKT BRNO

Term: June 4 - 26 2010

Venue: Brno

The Swimming pool za Lužánkami hosted a gathering of a total of 103 swimmers, of whom 80 were students of the Swimming Academy Beyond Barriers of KONTAKT bB. Organized in 10 teams both from the Czech Republic and from Slovakia, they came to confront their swimming skills. The Slovak team introduced its top team representatives.

The hetman of the South Moravia region Mr. Michal Hašek along with the Mayor of the City of Brno Mr. Roman Onderka MBA, took patronage over the gathering. A long-standing patron of KONTAKT bB MD. Tomáš Julínek kicked off the opening ceremony of the Championship. The most valuable performances of the gathering were those of the long-standing representatives Ms. Kateřina Lišková and Mr. Vojtěch Franěk. The former did the 50m backstroke in 47,80s for which she would have obtained a medal both at the World and the European Championship. In 1:42,05s Vojtěch Franěk achieved a track record which was better than the current world record in the 50m butterfly-stroke in the S2 class with swimmers with the second most difficult disabilities. The medals for the champions were handed over to the swimmers by the medal winning swimmer at the European Championships and at World universiades Ms. Hana Černá-Netrefová who represented Czech Republic in three Olympic Games. Hanka was accompanied by the swimmer of the 2009 Mr. Michael Rubáček and the coach of the representation of the olympic team Mr. Jiří Kyněra and by the triathlete and European vice-champion Mr. Filip Ospalý.

#### **The 3rd The Brno Dragon**

Organizer: KONTAKT bB Brno Centre and SK KONTAKT BRNO

Term: October 23 2010

Venue: Brno

The 3rd Brno Dragon was this year for the first time conceived as a Sprint race, the backstroke, the breaststroke and the butterfly-stroke were held on the short, 25m lanes and the 50m lane was given over to the free-style swim. Of 85 contestants, the swimmer from the sports club PK Zlín Adéla Chrástecká scored the highest in the category of the youngest pupils. The thirteen-year-old Michaela Philippi, a member of the home club SK KONTAKT BRNO, was the winner of the pupils' category. In the junior category, with a predominance of points the gold went to Milan Man from SK KONTAKT KARLOVY VARY and the winner among the adults was, as expected, the finalist of two Paralympic games and two World Championships Mr. Vojtěch Franěk a swimmer of SK KONTAKT PRAHA. He also scored the overall best time in the category of Men, and the Women best performance belonged to the sixteen-year-old Jana Berušková, a swimmer from the same club. They both received the highest number of points for the time conversion on the 25 m butterfly-stroke. In the prestigious team competition, the best swimmers to stand the test were those from SK KONTAKT PRAHA over the Brno club. The third place belonged to the team of Karlovy Vary. The winners received their medals from the hands of the Mayor of the town district Brno-Centre, who took patronage of the race.

#### **The 19th Strahov Cup**

Organizer: The Prague Centre of KONTAKT bB and the SK KONTAKT PRAGUE

Term: November - 13 2010

Venue: Prague

This gathering was an established final show of the swimmers in the series of the Czech Cup in swimming for the physically disabled. The swimmers could choose from the distances 50m backstroke, 50m breaststroke, 50m butterfly-stroke and 100m free style. A total of 126 swimmers took part in the race.

Among the youngest pupils the best performance was that of Tadeáš Strašík from SK KONTAKT PRAGUE. The pupils' category was won Marian Fiala from Brno. Milan Man from SK KONTAKT KARLOVY VARY reached

to the gold in the junior category. The Prague based swimmer Kateřina Lišková gave a farewell to her racing career by winning the adults' category. The best results in points from three races of the series are calculated into the final ranking. The highest total of points in the final ranking of the Czech Cup 2010 in the adult's category belonged to the athletes from Prague. Vojtěch Franěk gave the best performance among the men - in the Championship of the Czech Republic in Brno he reached a better time in the 50m butterfly-stroke than the record of the time. Among women Kateřina Lišková reached the highest point acquisition in the whole series at the 50m backstroke also at the home championship in Brno. She decided this victory would be her farewell to the swimming career and in the evening she was officially inducted into the Barrierless Pool of Fame. Starting from January the Czech Paralympic Committee is obliged to register our swimmers into international contest as a result of the pressure from the International Paralympic Committee so we all hope that our Kateřina Lišková will be tempted by the vision of the real chance to swim at the, in her case, third Paralympics in London 2012. The Karlovy Vary based athlete Milan Man won the junior category with a considerable headstart Michaela Philippi from SK KONTAKT BRNO did very well in the pupils' category. Among the youngest swimmers, not older than 10, the one with the biggest amount of points was Adéla Chrástěcká from PK Zlín. The swimmers were handed over their awards as usually from the hands of the fourfold Paralympics winner Mr. Martin Kovář and from the legend of the underground Mr. Tony Ducháček - this year Lukáš Pollert who used to kick off the activity of his Kids Ski Club called Lajdáček was not present. A traditional part of the evening was the Pickled Floaters (a Czech traditional snack) contest. In a large and crowded starting field counting 23 superbly prepared floaters, the best swimmer of the year Vojtěch Franěk was the first to win. The postgraduate student of the Faculty of Mathematics and Physics at the Charles University and programmer by trade Vojtěch calculated everything carefully and prepared together with his wife Andrea the delicious check sample bearing the name Berliner Schmetterling (the Butterfly of Berlin).

#### **Other events in the IPT area**

##### **The German Open**

Term: June 18 - 26 2010

Venue: Berlin

Over 600 swimmers from 134 countries and sports clubs participated in the competition which took place from Thursday to Sunday at the 24th German Open swimming championship in Berlin. The delegation of the physically disabled swimmers from KONTAKT bB committed to the Czech Sports Organisation for Physically Disabled were there too. Based on the results from the Czech Cup the young and promising Milan Man, Jana Berušková, Vendula Dušková, Petra Flekačová and Michaela Philippi accompanied by two experienced matadors Kateřina Lišková and Vojta Fraňek were nominated. Each of the chosen swimmers went through 8 - 10 racing starts in the course of three racing days. Despite the fierce competition, Kateřina Lišková and Jana Berušková fought their way to the final races. The personal records of the other swimmers topped up the successful performance of our KONTAKT team.

##### **The European games of the handicapped youth.**

Term: June 25. - 26 2010

Venue: Brno

The European games were attended by over 500 athletes from 10 countries who came to Brno to measure their forces in the traditional recreational sport boccia, in games of chess, in wheelchair slaloms, table tennis tournaments, athletics, swimming and petanque. The organizing association the Emil Endowment Fund entrusted KONTAKT bB with the organization of the swimming part of the European Games. The swimmers of the sports clubs were enjoyed the possibility to measure their forces with their European colleagues. Moreover the added up to the weekend by visiting the South Bohemian municipality of Lednice and they celebrated the annunciation ceremony of the games in the Špilberk castle by dancing.

##### **IWAS GAMES**

Term: August 22 - 23 2010

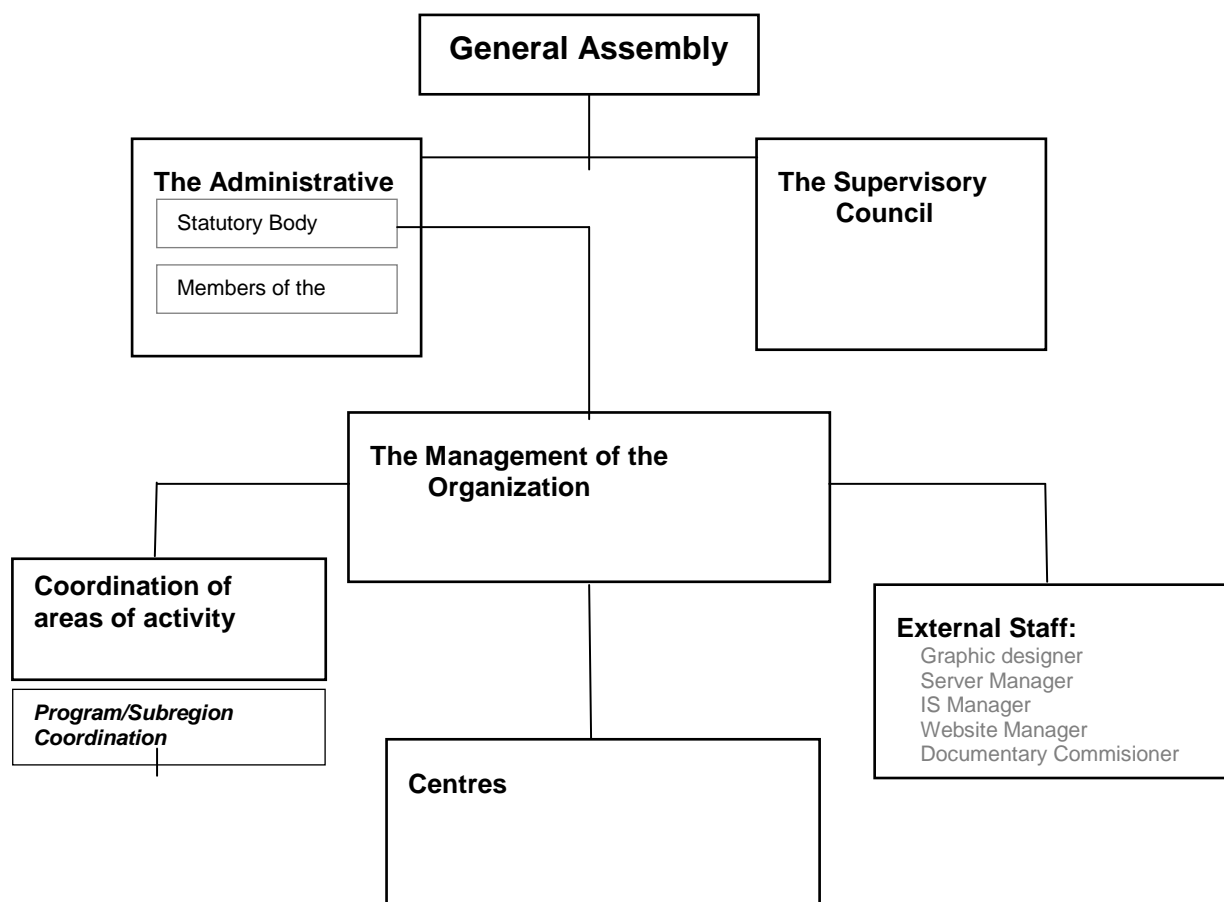

Venue: Olomouc

Also the organizers of the World Junior Games reached at KONTAKT bB with the request to organize the swimming part of the event which was attended also by our swimmers. 27 swimmers from four of the KONTAKT bB Centres and sports clubs formed by the Centres, were nominated as representatives of the Czech Republic delegated to the World Junior Games IWAS by the the Czech Sports Organisation for Physically Disabled. The SK KONTAKT KARLOVY VARY had the biggest number of swimmers in the representation with 10 delegates. 9 swimmers were nominated from SK KONTAKT BRNO. 7 were from the SK KONTAKT PRAGUE and one

swimmer was delegated by the České Budějovice Centre. The part of the Czech delegation consisting of swimmers from KONTAKT bB and from Sports Clubs working by its Centres, acquired a total of 14 medals (1 golden medal, 2 silver medals and 10 bronze medals). The most successful collectors of precious metals were the swimmers from Brno with a share of 1-1-6 medals. From the medal winning point of view, the most successful were the swimmers of the youngest age group not exceeding 14 years of age, appearing on the medal podium eleven times altogether.

#### IV. The Structure Of The Organisation

##### *The organizational structure of KONTAKT bB*

KONTAKT bB is a civic association, governing its activities according to the basic document - Articles of the Association. The supreme body of the association is the General Assembly - The assembly of all members. According to the Articles of the Association it is scheduled to meet every other year. The representatives of the Association's Administrative Council and Supervisory Council are to be elected every four years. The head of the Administrative Council the President and two Vice Presidents are elected directly. these are the members of the Statutory Body. The Statutory Body has the power to act on behalf of the association, is liable for the run of the association, it determines its policy and the guidelines of development. The Administrative Council shall meet at least twice a year.

The President of the Association recruits and appoints employers to their posts. In the level of ensuring the daily run of the organization it is governed by the association's Executive Director. Along with him the executive management of the organization consists of the chief accountant, the FR manager and the PR Manager. They report to the Statutory Body and to the Administrative Council.

The Centre Managers are liable for the realization of the key business activity in the centers. Other posts in the centers are the Deputy Head of the Centre and the PR and FR center manager. Jobs can be the according to the size and scope of the Centre's activities united. According to the actual staffing of the Centre the employees are forked among the activities necessary to ensure the main activities in their areas and sections.

---

## **Bodies elected by the General Assembly**

### **The Administrative Council**

#### **The Statutory Body**

Mgr. Jan Nevrkla, Chairman

Mgr. Radka Kučírková, Deputy Chairwoman

Bc. Roman Vojáček, Deputy Chairman

#### **Members of the Administrative Council:**

Mgr. Martin Kovář, Ph.D. Zbyněk Švehla Štěpánka Řehořková Mgr. Jaroslav Chýle Jana Švarcová Vojtěch Franěk, Ph.D.

#### **The Supervisory Council**

Jarmila Mrtková, Michal Crhonek, Miloš Hirman

### **The 9th General Assembly - November 26 - 27 2010, Prague, Strahov**

The Ninth General Assembly of KONTAKT bB is traditionally held in conjunction with the final event of the year in Prague's Strahov. Its members took a close look at the overview of the past period and went on to elect their officials for the upcoming year. No changes were made in the structure of the Statutory body. The Administrative Council will welcome the deputy manager of the Brno Centre Ivana Tesařová and the longstanding representative Kateřina Lišková. These women will take the place of Jaroslav Chýle, who lost the chance for the lucrative job position by choosing to go to Nepal at the time of the General Assembly, and of Zbyněk Švehla, who will newly be in the chair of the Supervisory Council There he will be joined by the current member Miloš Hirman and newly by Michaela Tůmová who defeated Michal Crhonko We are pleased that both Michael Crhonek and Jaroslav Chyla will continue to cooperate with the association and we will be able to make use of their legal and economic expertise.

#### **The Management of the Organization**

Ing. Vaclav Eybl, IT administrator, and Website maintenance

Mgr. Vít Franta, Graphic Designer El Magnifico

Vítek Kulhánek, Webmaster

Mgr. Jana Švarcová, Chief Classifier (classification of swimmers according to the disability)

Mgr. Josef Dušek, The Good Spirit of the Assosiation

Mgr. Milena Dušková, Excercising, Choreographics and Charisma charisma

### **We would like to thank the following people for their free time they deticated to KONTAKT bB**

Ing. Janu Stuchlík, the creator and the administrator of the Association's Information System KOBEBIS

Mgr. Vojtěch Fraňek, PhD., the creator of the FRANRACE system of race management

We would also like to thank Michal Remeš for the processing of the video of the Swimming Academy beyond barriers of KONTAKT bB in 2010 and the staff of Telefónica O2 for volunteering at the races.

## **Supervision and Expert Guarantee**

### **The Project Supervisor was Dr. Martin Kovář**

A graduate and postgraduate of the Faculty of Physical Education and Sport of the Charles University handling in his dissertation thesis the Applied Methodical Series in the tuition of swimming lessons for individuals with spinal cord lesions.

He was the Information and Communication Technology (ICT) and sports advisor to the Prime Minister of the Czech Republic. He is a member of the Administration council of the Charter 77 Foundation - Konto BARIÉRY. In the years 1995-2001 he the advisor to the Minister of Labour and Social Affairs and he was the Project Director of the Computers Against Barriers project in the Charter 77 Foundation. In the beginning of the nineties he was the first member of the Government Committee for disabled citizens.

He was the key person in the creation of the entire swimming program and of the Kontakt project. He is the co-author of the original methodological series of swimming tuition, which is dealt with in his dissetation thesis. He applied all the elements of the methodological series on himself reaching the very top in his sportive carrier becoming a threefold winner at the Paralympics in Athens. In the beginning of the nineties He came up with the idea to organize swimming lessons on week-long residential events, which later, in the second half of the nineties included a PC handling course. In the beginning he contributed significantly to the realization of the contact program. In the present time he makes an ideal Project Supervisor considering his experience in the nonprofit and commercial sphere and being in touch with the practice.

**Expert Guarantee:**

Doc. MD. Pavel Kolář, Head of the Rehabilitation Clinic of the General University Hospital Motol  
MD. Jan Hnízdil, Comprehensive Medicine Centre, Dobřichovice

**Expert Guarantee in memoriam**

Doc. PhDr. Jaroslav Potměšil, Faculty of Physical Education and Sport at the Charles University, Department of Pedagogy, Psychology and Didactics

The funeral of Jaroslav Potměšil was in December. His shining optimism and energy stays in the memories of everyone. He was a true, wind-beaten skier and a university teacher being always close to his students. He worked in top positions in sports on the Ski Union and after he experienced closely the reality of the life of his son Jan tied to a wheelchair he led the group of people in the alma mater of all gym teachers, who were trying to make education of experts in sports for the handicapped easier and to make it possible for the disabled to study and get a degree too. In the second half of the nineties he assisted in the implementation of the swimming program in the university swimming pool in Prague Hostivař and as a doyen of our club, he participated in our gatherings, meetings and helped us to crystallize ideas. His son Jan came to swim with us from time to time and he came to stay with us in Strakonice encouraging the motivation of the youngest as well as the older members.

Jaroslav passed away - leaving behind a vivid footprint. The footprint he left on the snow was already covered by new snow. Na ten fialový klisr, co s ním tenkrát těsně před Jizerskou padesátkou namazal lyže tatínkovi Martina Kováře, už taky napadal prašan i prach. Míla to tenkrát dotáhnul na svoje nejlepší umístění na „jizerce“ a v tom stoupání na Smědavu předběhnul nějakých 200 soupeřů. Další rok pak nastupoval s tak nízkým startovním číslem, že takové už nikdy neměl.

Jarda byl prostě expert na mazání. Jaroslav, thank you for everything. Peace to your soul!

On behalf of the entire staff of KONTAKT bB Honza and Martin

To the General Assembly of organisation  
KONTAKT bB, civic association  
for education, rehabilitation and sport without barriers  
Vaníčková 7  
Praha 6  
ID No: 68402651

**Report on Financial Statements**

Today, based on the audit conducted, we have issued an Auditor's Report of the following wording, pertaining to the financial statements which are part of this Annual Report:

"We verified the financial statements enclosed, of KONTAKT bB, civic association for education, rehabilitation and sport without barriers, i.e. the Balance Sheet as at 31 December 2010, the Profit and Loss Statement from 1 January 2010 to 31 December 2010, and the annex to these financial statements, including the description of relevant accounting methods used.

**Responsibility of Entity's Statutory Body for the Financial Statements**

- The compilation and true representation of the financial statements, in accordance with Czech accounting regulations, are the responsibility of the Statutory Body of KONTAKT bB, civic association for education, rehabilitation and sport without barriers. This responsibility includes proposing, implementing and taking care of the internal supervision over the compilation and true representation of the financial statements so that the financial statements are free from material misstatement, stemming from a fraud or mistake; choosing and using appropriate accounting methods; and making accounting estimates that are adequate to a given situation.

**Auditor's Responsibility**

Our responsibility is to issue a verdict on these financial statements, on the basis of the audit conducted. We conducted the audit in compliance with the Act on Auditors and with the International Standards on Auditing and the relating application clauses of the Chamber of Auditors of the Czech Republic. These regulations require that we adhere to ethical standards and that we schedule and conduct the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

The audit includes the application of auditing procedures the objective of which is to obtain audit evidence of the amounts and facts in the financial statements. Choosing the appropriate auditing procedures is at auditor's discretion, and so is the assessment of the risks of the financial statements containing material misstatement, stemming from a fraud or mistake. In assessing those risks, the auditor shall take account of the internal supervision relevant for the compilation and true representation of the financial statements. The objective of the assessment of the internal supervision is to propose appropriate auditing procedures, and not to comment on the effectiveness of the internal supervision. The audit also includes the assessment of the appropriateness of the accounting methods used, the assessment of the adequacy of the accounting estimates performed by the management, as well as the assessment of the overall presentation of the financial statements.

We believe that the audit evidence obtained constitutes a reasonable and appropriate basis for our opinion.

**Auditor's Opinion**

In our opinion, the financial statements provide a true and fair picture of the assets, liabilities and the financial position of KONTAKT bB, civic association for education, rehabilitation and sport without barriers, as at 31 December 2010, and of the costs, revenues and its financial result for 2009, in compliance with Czech accounting regulations."

### Report on Annual Report

We also verified the compliance of the Annual Report of KONTAKT bB, civic association for education, rehabilitation and sport without barriers, as at 31 December 2010, with the financial statements that are included in that Annual Report. Correctness of the Annual Report is the responsibility of the Statutory Body of KONTAKT bB, civic association for education, rehabilitation and sport without barriers. Our responsibility is to issue our verdict on Annual Report's compliance with the financial statements, on the basis of the verification performed.

We carried out the verification in accordance with the International Standards on Auditing and the relating application clauses of the Chamber of Auditors of the Czech Republic. These standards require that the auditor schedules and carries out the verification to obtain reasonable assurance about whether the information that is included in the Annual Report and describes the facts that are also represented in the financial statements is, in all major aspects, in compliance with the relevant financial statements. We are confident that that verification performed provides a reasonable basis for auditor's opinion.

Our opinion is that that the information contained in the Annual Report of KONTAKT bB, civic association for education, rehabilitation and sport without barriers, as at 31 December 2008, is, in all major aspects, in compliance with the above financial statements.

In Liberec, on 13 May 2011
